

Job Market 201/2012

Leipzig, December 12, 2012

The **German Centre for Integrative Biodiversity Research (iDiv)** is one of the seven National Research Centres funded by the German Research Foundation (DFG). It is located in the city of Leipzig and jointly hosted by the Martin Luther University Halle-Wittenberg (MLU), the Friedrich Schiller University Jena (FSU), the University of Leipzig (UL), and the Helmholtz Centre for Environmental Research (UFZ). It is supported by the Max Planck Society, the Leibniz Association, the Klaus Tschira Foundation and the Free State of Saxony. Its central mission is to promote theory-driven synthesis and data-driven theory in this emerging field. The concept of iDiv encompasses the detection of biodiversity, understanding its emergence, exploring its consequences for ecosystem functions and services, and developing strategies to safeguard biodiversity under global change.

The University of Leipzig offers as from March 1, 2013 the following position:

Doctoral fellowship

(initially limited to 3 years, 65 percent of a full-time employment)

Salary: Entgeltgruppe 13 TV-L

on Apiculture and the pollinator decline: A model for pathogen driven biodiversity risks

Embedded in the active research environment of iDiv, the **Young BioDiversity Research Training Group (yDiv)** will be established. Its goal is to educate a new generation of scientists in transdisciplinary biodiversity research, who will have gained expertise both in experimental as well as theoretical fields of research. Fellows will attend lectures and seminars on a broad range of topics in the field of biodiversity science and conduct their research in a modern, international and integrative working environment.

Topic/job description:

- expand the theory of host parasite evolution for social hymenoptera
- develop an agent based model including individual and colony level selection

Requirements / expected profile:

- an excellent master's degree in Evolutionary Genetics and/or Computational Biology
- profound knowledge in evolutionary theory of host-pathogen systems
- experience in agent based modelling
- excellent use of spoken and written English and ambition to publish in international journals
- creativity, enthusiasm and endurance
- proficiency in advanced statistical methods is a plus

We offer you a PhD position in the first cohort of yDiv PhD students. All doctoral fellows will study together at iDiv and will be affiliated with one of the three universities. This position will be affiliated with the Martin-Luther-University of Halle-Wittenberg and supervised by Prof. Dr Robin F.A. Moritz, Institute of Biology, Faculty of Life Sciences (<http://www.mol-ecol.uni-halle.de/>).

Applications are accepted until **January 18, 2013**. All applications should make reference to the file number 201/2012, include a cover letter describing research interests and relevant experience, curriculum vitae, one letter of recommendation and MA/BA/Diploma certificates.

Applications should be directed to **both**:

University of Leipzig
Faculty for Biosciences, Pharmacy, and Psychology
The Dean Professor Dr. Andrea Robitzki
Brüderstraße 32, 04103 Leipzig, Germany

and in electronic form to the yDiv coordinator Dr. Jula Zimmermann (jula.zimmermann@idiv-biodiversity.de) in a single PDF file with reference file number in the subject line.

For **queries** on the application process please contact jula.zimmermann@idiv-biodiversity.de.

Applying via email is questionable under data protection law. The sender assumes full responsibility.

iDiv and the University of Leipzig are equal opportunity employers.
Severely disabled persons are encouraged to apply and
will be given preference in the case of equal suitability.
